

## **MyPrint's eTools Technology Solution Selected By Honeywell Inc.**

(IRVINE, Calif., April 25, 2006) – MyPrint Corporation today announced that Honeywell Inc., an international technology and manufacturing leader, has selected the company's award-winning software application, eTools, to streamline the production and fulfillment of sales and marketing collateral for the global organization.

The eTools solution will be used to develop a custom web interface that will facilitate print-on-demand and fulfillment requirements for sales sheets and marketing collateral. The site will include a catalog of collateral items, easily accessed by thousands of Honeywell personnel, for simplified ordering. In addition, administrators will be able to manage the ordering and approval process and will have access to reports on inventory and order history.

eTools, LLC, a wholly owned division of MyPrint Corporation, is a revolutionary online print management and order fulfillment software solution that provides a quick, simple and cost-effective method of ordering, producing, and distributing materials. The software has applications in many industries. MyPrint Corporation's current clients include the industry leaders in the hospitality, healthcare, education, entertainment, travel and financial services industries.

"We are pleased that another industry leader has selected eTools to help manage their print on demand requirements," said Kent Barkouras, CEO of MyPrint Corporation. "We look forward to offering Honeywell significant cost savings and ordering efficiencies.. In March, 2006, we started marketing eTools across the country and the Honeywell implementation will be the first of many in the coming months. We are thrilled to have them on board."
